WE MUST GET ALONG WITH LESS SUGAR THIS YEAR BECAUSE—

1. Military needs are high. Each soldier actually consumes twice as much sugar a year as the average civilian now receives.
2. Ships which otherwise might be bringing sugar into the United States are hauling supplies to the battle fronts.
3. Manpower is scarce at sugar refineries and shipping ports.
4. Beet sugar production last year was 500,000 tons short, making the stock of sugar smaller for this year.
5. Last year many people over-applied for canning sugar. We used so much sugar that stocks at the beginning of this year were abnormally low.

INSTRUCTIONS

Fill out this form to apply for sugar for home canning. You may apply on this form for yourself, and members of your "family unit." (A "family unit" consists of all persons related by blood, marriage, or adoption, who regularly reside in the same household.) An operator of a Group I institutional user establishment may make application only for himself or his "family unit." Boarders at that establishment, not members of the same "family unit," must file separate applications if they need sugar for home canning. Upon completing this form mail or take it to your War Price and Rationing Board.

Estimate your home canning needs carefully and apply only for as much sugar as you are sure you will need

The Rationing Board will determine the amount it can issue to you under the regulations. In no case may it issue for the entire season more than twenty (20) pounds of sugar per person, nor more than one hundred sixty (160) pounds per "family unit," even though the "family unit" may consist of more than eight persons.

Any additional application *must* be made to the same board where the original application was filed, but not more than one additional application may be made.

Any sugar obtained through this application is to be used for home canning and preserving only and must not be used for any other purpose.

Attach Spare Stamp No. 13 from War Ration Book Four of each person for whom application is made. No application will be approved unless those stamps are attached to it, or unless a previous application with the stamps attached is on file.
